INTERNSHIP CERTIFICATE ISSUED BY THE ORGANIZATION

ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to all those who have supported and guided me throughout the successful completion of this Internship.

First and foremost, I would like to thank Prof. DARSHANKUMAR D. BILLUR, Principal of K.L.E. SOCIETY'S C.B. KORE POLYTECHNIC CHIKODI-591201, for providing the necessary facilities and a motivating environment to carry out this work.

I express my deep sense of gratitude to Prof. SANTOSH K TAVADARE, Head of the Department of COMPUTER SCIENCE AND ENGINEERING, for their constant encouragement and valuable support during the course of this Internship.

I am especially thankful to my Internship guide, Mr. Bhushan Dongare, Designation - Full stack Developer for their consistent guidance, suggestions, and valuable feedback that helped shape this Internship into its final form.

I would also like to thank all the faculty members and staff of the ZEEL CODE LABS LLP, BELAGAVI. for their help and cooperation throughout the duration of this Internship.

I extend my heartfelt thanks to all the Staff Members of the Department of COMPUTER SCIENCE AND ENGINEERING for their continuous support and assistance throughout my academic journey.

Last but not the least, I am deeply thankful to my family and friends for their unwavering support, patience, and encouragement during every stage of this journey.

EXECUTIVE SUMMARY

On Job Training1: Placement Management System

The Placement Management System is a comprehensive software solution designed to streamline and automate the placement process in educational institutions. It serves as a centralized platform that bridges the gap between students, placement officers, and recruiters, making the entire process more efficient and transparent.

This system enables students to register and manage their profiles, upload resumes, view job openings, and apply for positions that match their qualifications. Placement officers can use the system to post job openings, track student applications, manage recruiter interactions, and generate reports. Recruiters can browse eligible student profiles and schedule interviews through the portal.

By reducing manual paperwork and administrative burden, the Placement Management System ensures faster communication, better organization of data, and improved decision-making.

On Job Training1: School Management System

The School Management System is a digital solution designed to automate and manage the daily operations of educational institutions efficiently. This system acts as an integrated platform that connects administrators, teachers, students, and parents, streamlining various academic and administrative processes.

The system includes modules for student enrollment, attendance tracking, timetable scheduling, examination management, grade reports, fee collection, and communication. Teachers can manage classroom activities, upload assignments, mark attendance, and enter grades. Students and parents can access academic progress, exam results, and important announcements through a user-friendly interface.
